I wish to apply as a model with Paul Swinney Marketing and be placed on the Model Listing database, which is promoted to clients and other agencies. I would like to be selected for a professional photo-shoot. I understand that I would have to sign a "Model-Release" for any professional photos taken.

Although it our aim to create an opportunity of future work for models, we are not a modelling agency and any work offered will be solely from Paul Swinney Marketing. We may introduce the model to various other organisations, in this case the contract will be between the model and that organisation. I understand that this application is not a guarantee of any future modelling work.
